Bruno Capuano

Principal Cloud Advocate @ Microsoft | AI & .NET | Azure | Speaker |
Empowering Developers to Build Intelligent Apps
Canada

Summary

¡Hola! I'm Bruno Capuano (aka El Bruno) — Principal Cloud Advocate at Microsoft — helping developers build intelligent apps with AI and .NET on Azure

With 20+ years in tech and a journey that started as a Microsoft MVP, I'm passionate about:

Making AI approachable (and useful)

Supporting developer communities worldwide

Simplifying complex tech with code, demos, and stories

Creating content in English, Spanish, and even Spanglish

What I'm focused on

Empowering devs with AI + .NET + Azure

Speaking at global events, meetups, and Microsoft conferences

✍️ # Writing blog posts, tutorials, and open-source demos

Experimenting with agent frameworks, LLMs, and AI architectures

Hosting No Tiene Nombre, a Spanish-language podcast on AI & dev life

Let's connect if you're building with .NET, curious about applied AI, or just want to geek out over developer tools and frameworks.

Experience

Microsoft

4 years 4 months

Principal Cloud Advocate

March 2024 - Present (2 years)

Global - Remote

Senior Cloud Advocate, AppDev Team Lead, Growth Ecosystems

April 2023 - Present (2 years 11 months)

Global

Senior Cloud Advocate

November 2021 - Present (4 years 4 months)

Canada

Avanade

9 years 11 months

Regional Innovation Lead

March 2016 - November 2021 (5 years 9 months)

Toronto, Canada Area

As Canada Innovation Lead, I'm responsible for technical leadership, vision, and strategy for Avanade. I promote and lead a customer-centric innovation culture, and own communicating our technology vision to customers, press, analysts, and Avanade employees. To support our long-term technology strategy and solution development for Avanade's portfolio of offerings I'm also collaborate with our Market Units and local leadership team.

I'm leading innovation activities, this includes different activities like lead Design Thinking sessions, coordinate and lead hackathons, and more. These activities are client focused and also internal activities to nurture and grow our Culture of Innovation.

Innovation Group Manager

January 2012 - February 2016 (4 years 2 months)

Bruno was part of the EALA Showcase (Europe, Africa, and Latin America). He leaded distributed teams to create solutions for Avanade. Bruno performed several tasks in the EALA Showcase like work with the SMEs stakeholders to define the project plan for the solutions for the showcase. Bruno also managed the budget for several projects. He also participated as a speaker for customer presentations in EALA in the solutions created for the Showcase. Finally, Bruno had a 20% dedicated to the development in the solutions, and he is the technical lead for the Showcase projects.

Avanade

Group Manager - Solutions

October 2007 - 2011 (4 years)

Bruno is a proactive, experienced senior software architect and developer with a track record of delivery quality solutions specializing in delivering .Net Solutions and Microsoft Technologies. During his 7 years in the IT industry

he has had roles in development, systems analysis and project management using technologies like .Net, C#, XML, SOA on a number of large and complex projects.

Avanade

1 year 11 months

Solution Manager

October 2006 - July 2007 (10 months)

Sr Solution Developer

September 2005 - October 2006 (1 year 2 months)

Pectra

4 years 10 months

CDO

April 2003 - January 2005 (1 year 10 months)

Solution Developer

April 2000 - April 2003 (3 years 1 month)

Córdoba, Argentina

Bruno began his professional career as a junior developer and it progressed until he becomes the leader of the development equipment of Pectra during 2003 and 2004. During the 3 evolutions of Pectra he was in charge to adapt the product waves to the existing Microsoft technologies at every moment. The first version of Pectra was supported on VB6, COM+, SQL Server and ASP, it was redesigned for .Net Framework 1.0; and the future version evolves until the launch of the .Net Fwk 1.1 and a version in Java and Oracle was also created to support multiplatform. Bruno leads the development team in all of this phases.

In those years he use a lot of different technologies Visual Basic 6, COM+, SQL Server, Asp, Soap ToolKit, Xml, in the Pectra 2001 version; and .Net, Java, SQL Server, Oracle, in the Pectra 5.0 Version.

Ginkgo

Solution Developer

January 2003 - January 2005 (2 years 1 month)

Córdoba, Argentina

Prominente
